Clarifications	
Tenderer's Request for Clarification	MWC's Clarification in reply
<p><b><u>RFC #1</u></b> Please provide Tender Form D.</p>	<p><b>Tender Form D</b>, as included in the RFP Tender Forms, is a cover page under which the Tenderer (and in the event of a Joint Venture, each one of its Members) is to attach a 'Confirmation of Proper Bookkeeping Practices', in accordance with the <b>Income Tax Ordinance and the Value Added Tax Law, 5736 – 1975</b>.</p> <p><a href="#">As provided under Section 6.2 (Approvals and Affidavits as per the Public Entities Transactions Law, 5736-1976) of Volume 1 (Request for Proposals)</a> - This requirement applies to <a href="#">Tenderers or Members thereof (as applicable)</a> entities who are a <b>Local Company</b>, as defined in the RFP.</p>
<p><b><u>RFC #2</u></b> Please provide Tender Form H.</p>	<p>As indicate in the amendment above, <b>Tender Form H - Evaluation Criteria Information</b> is attached herein <a href="#">as Annex A</a>.</p>
<p><b><u>RFC #3</u></b> Please provide a link to CD with the DB Tunnel Project Documents in accordance with RFP Section 4.1.</p>	<p>The DB Tunnel Project Documents, which are relevant for the purposes of this RFP Selection Stage, have been uploaded to MWC's website.</p>

## [Annex A](#)

### **Form H – Evaluation Criteria Information**

To be completed by the Tenderer, attaching the relevant supporting documentation

#### **See RFP Annex B for scoring criteria.**

Please complete the three final columns and attach under cover of this form the supporting documentation for each demonstrated project, corresponding with the Sub-Criteria Number.

All terms shall have the meaning ascribed thereto in the RFP, unless otherwise defined within this Form H.

For the purpose of the Evaluation Criteria, the term “**Tunnelling Project**” shall mean the construction of a tunnel structure **(i)** the length of which is, at least, five (5) kilometers in continuous length; and **(ii)** the excavation diameter of which is, at least, three (3) meters<sup>1</sup>.

For the purpose of the Evaluation Criteria, the term “**Shaft Project**” shall mean the construction of a shaft structure **(i)** the excavation depth of which is, at least, fifty (50) meter deep; and **(ii)** the excavation diameter of which is, at least, seven (7) meters.

---

<sup>1</sup> Please note that this particular detail differs from the dimension required under the Threshold Requirements in the RFP.

<b>Evaluation Criteria</b>	<b>Sub-Criteria Number</b>	<b>Sub-Criteria Requirements</b>	<b>Demonstrated Projects</b>	<b>Documents attached by Tenderer in support of the required details of experience</b>	<b>Point of Contact for each demonstrated project</b>
The Tenderer's <sup>2</sup> experience in providing project management or construction management services.	1	Project management or construction management services on Tunnelling Projects from, at least, the commencement of excavation and until their Completion. Such Tunnelling Projects are required to be water tunnel projects, sewage tunnel projects or drainage tunnel projects.			

---

<sup>2</sup> Either by itself or by one or more of the Key Personnel (as applicable).

	2	Project management or construction management services on Shaft Projects from, at least, the commencement of excavation and until their transfer and acceptance by the respective owner (including in the event such acceptance was subject to completion of minor deficiencies).			
	3	Project management or construction management services on Tunnelling Projects excavated by Tunnel Boring Machines (TBM) <sup>3</sup> from, at least, the commencement of excavation and until their Completion.			

---

<sup>3</sup> Other tunnelling methods, such as Pipe Jacking or Micro-Tunnelling, **shall not** be accepted for the purpose of scoring this item.

	4	Project management or construction management services on Tunnelling Projects excavated by drill and blast method from, at least, the commencement of excavation and until their Completion, which Completion shall not be earlier than 1.1.2004.			
	5	Project management or construction management services on Tunnelling Projects including waterproofing systems from, at least, the commencement of excavation and until their Completion. Such Tunnelling Projects are required to be water tunnel projects, sewage tunnel projects or drainage tunnel projects.			

	6	Environmental supervision services on Tunnelling Projects, including with effect to groundwater, surface water, flora and fauna. Such Tunnelling Projects are required to be water tunnel projects, sewage tunnel projects or drainage tunnel projects.			
	7	Project management or construction management services on at least one Design-Build water transport Tunnelling Project from, at least, the commencement of excavation and until its Completion, which Completion shall not be earlier than 1.1.2010.			

	8	Accompanying and supervising services to a project owner in relation to the design of a TBM (whether tailor made or refurbished) its manufacture, factory acceptance tests, site acceptance tests, performance control and analysis, including producing reports thereof to the owner.			
	9	Project management or construction management services on rock mining projects using the following methodology:  <ol style="list-style-type: none"><li>1. Hard Rock or Hybrid TBM</li><li>2. Drill &amp; Blast</li><li>3. Probing and Grouting</li></ol>			
	10	Project management or			

		construction management services on projects where ground conditions included karst rock or other cavity type rock.			
	11	Completion of project management or construction management services on a tunnelling project <sup>4</sup> which is operational as of the Submission Date e and which is either a drinking water tunnel project, sewage tunnel project, drainage tunnel project, road or rail tunnelling project <sup>5</sup> .			

---

<sup>4</sup> The requirements of the “Tunneling Project” definition are not applicable in this instance.

<sup>5</sup> The requirements of the “Tunneling Project” definition are not applicable in this instance.

The Key Personnel	12	The Tunnelling Construction Manager has served as the project manager or construction manager of the following types of tunnelling projects <sup>6</sup> from, at least, the commencement of excavation and until their Completion.			
	13	The QA Manager has served as the QA team manager or a QA team member of the following types of tunnelling projects <sup>7</sup> from, at least, the commencement of excavation and until their Completion			

---

<sup>6</sup> The requirements of the “Tunneling Project” definition are not applicable in this instance.

<sup>7</sup> The requirements of the “Tunneling Project” definition are not applicable in this instance.

	14	The TBM Expert has served as a TBM consultant on the following types of tunnelling projects <sup>8</sup> from, at least, the commencement of excavation and until their Completion			
--	----	--	--	--	--

---

<sup>8</sup> The requirements of the “Tunneling Project” definition are not applicable in this instance.
