**Mekorot Water Company Ltd.
Procurement & Logistics Division**

Tender No. R-20/2017 for the supply of E.S.P equipment and system for the Deep Well Ram -

Mekorot Water Company Ltd. (hereinafter: “**Mekorot**”) hereby requests to receive proposals for the design, manufacturing, testing, training, supervision for installation, packaging, delivery to terminal based on FCA IncoTerms2010 of a **150 cubic meters per hour E.S.P. (electrical submersible deep well pump along with all equipment)**.

The installation of the Equipment will be done by Mekorot and/or by anyone on its behalf according to the supplier’s instructions, training and supervision for installation.

A **copy of this tender** documents can be obtained at the Procurement and Logistics Unit located in the “Mekorot” building, on 9 Lincoln Street, Tel Aviv, 2nd floor (near Room 215), on Sunday to Thursday from 9:00 to 14:00. A copy of the tender documents can also be received by email; please contact Ms. Lihi Cohen at email lcohen@mekorot.co.il while stating the following information: name of the requesting company, name and surname, address, zip code, phone, cell number, the company's email address and company number \ authorized dealer number.

Permitted to submit proposals are bidders that meet all threshold conditions listed below, as evidenced by presenting the appropriate documents in accordance with the details in this section:

- The bidder must be the pumps manufacturer of or supplier representing an Israeli or foreign manufacturer. If the bidder himself is not the manufacturer, he should attach to his proposal a confirmation letter from the pump manufacturers confirming that the bidder is the official manufacturer's representative in Israel and is qualified and authorized to offer and market the manufacturer's pumps.
- The pumps manufacturer must have proven experience in the manufacturing and supply of E.S.P. pumps with capacity of 75 cubic meters per hour or higher and in a quantity of at least 3 pumps over the last 5 years, completed by the deadline for submitting bids in the tender. To prove this threshold condition, a list of customers that can be verified by Mekorot must be enclosed, including details of the pumps sold, the sites they were installed in and the contact persons and their position, phones and email addresses.
- The bidder offering the pumps must have proven experience in providing pump with a capacity of 50 cubic meters per hour or higher and in a quantity of at least 3 pumps over the last 5 years, completed by the deadline for submitting bids in the tender. To prove this threshold condition, a list of customers that
